

Debt Recovery Services

What options do you use when your parkers don't pay?

Scofflaw lists. Towing. Booting. To tow or to boot. Are you concerned about losing a customer over a potential mistake? Nation-wide Debt Recovery Service, Inc. (NWDRS) offers business solutions if these are the concerns you are facing.

NWDRS is a fully functional, licensed, and bonded collection agency whose primary focus is the collection of the lost parking revenue. We pride ourselves on our collection percentages. With over 15 years of collection experience, we understand how to maximize collections and minimize consumer hassles.

We have contracted with the DMV in numerous states to retrieve owner information from only a license plate number. We have streamlined processes for our clients to assign new violations, answer disputes, respond to verification requests and void violations via our web site. The customer also has the option of using our consumer site to enter their dispute, check the status of a particular violation, and/or pay with a credit card.

Please contact our office to speak with one of our client administrators at (888) 877-6212 or email us at SBagdon@NWDRS.com.

Putting together the pieces of your parking puzzle.
